Q ecMonitor® ACK

This Application is compatible with iPhone and Android versions, download by search ecMonitor® ACK in App Store or Google Play or scan the QR code.

ecMonitor ACK Application

Application's features :

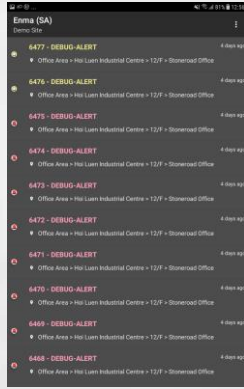

- Alerts from all buildings
- Sound effect for red alarm
- Colors represent three different stages

RED: New alert
YELLOW: Acknowledged
BLUE: Handled

Usage Procedure

1. Launch the App and login with person account

2. All alerts will be shown in list view after first login

3. Enter setting page by clicking , for mute pls turn off the alarm sound

4. Switch to Alert Centre Mode will display alerts in monitoring graphs.

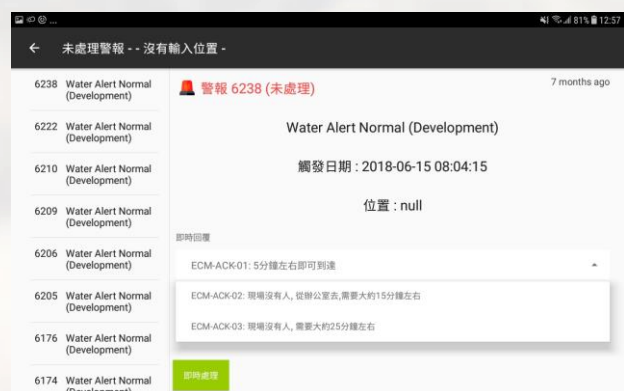

Alert Handle Procedure

1. Select **Red** Alert and fill in reply reason. It represents that incident had been acknowledged and will be handle.

2. When the alert turns **yellow**, select it and fill in the reply reason. It represents the incident had been handled already.

3. Under Alert Centre Mode, click the center of circle for handling incident.
